BSc Computer Science - Awaiting Graduation

Professional Summary

- Bachelor of Science in Computer Science graduate-in-waiting at Mulungushi University, having completed the final semester and currently awaiting graduation. Passionate about building practical software solutions with a strong foundation in software engineering, database design, API integration and full-stack development. Skilled in Python, Java, JavaScript, TypeScript, Dart, SQL, Flutter, Django and React, with experience developing web and mobile applications and automation tools. Enjoy solving real-world problems, learning new technologies and building applications that improve efficiency and user experience.

Education

- **Mulungushi University** — Kabwe, Zambia
  Bachelor of Science in Computer Science — *2021 – 2026*
- **St. Paul's Secondary School** — Kabwe, Zambia
  2015 – 2019
- **Holy Cross Convent School** — Lusaka, Zambia
  2008 – 2014

Experience

- **Lusaka City Council** — Lusaka, Zambia
  Software Developer Intern — *August – September 2024 & January – February 2025*
  - **Information Systems Support**: Supported the development, deployment and maintenance of internal information systems used within the Information Technology Department.
  - **Application Development**: Contributed to the implementation of a real-time file sharing and communication application using Java, HTML, CSS and JavaScript to improve collaboration among staff.
  - **System Testing**: Participated in testing, debugging and improving internally developed applications to ensure reliable functionality before deployment.
  - **Technical Support**: Assisted colleagues with troubleshooting software-related issues and resolving technical challenges encountered during daily operations.
  - **Team Collaboration**: Worked effectively within a multidisciplinary team while gaining practical experience in professional IT operations and project delivery.

Projects

- **Job Notifier**: Developed a modular Python job aggregation and automation system that scrapes listings from multiple Zambian job platforms, filters and normalizes data based on defined criteria, integrates database storage to manage collected listings, and automates email notifications for new matching opportunities, reducing manual effort in job searching.
- **Temporary File Deleter**: Developed a Python utility to automate the identification and removal of unnecessary files from the Windows temporary directory. Implemented recursive directory traversal and error handling to manage file access issues and improve reliability.
- **Health Information Management System (HIMS)**: Designed and developed a full-stack healthcare management system using Python, Django, SQL, HTML, CSS and JavaScript to digitize patient records for local clinics. Implemented secure authentication, patient registration, medical record management, search functionality and reporting features to improve the efficiency and accuracy of healthcare record management.
- **Real-Time File Sharing & Chat Application**: Collaborated with the Lusaka City Council IT team to develop a real-time communication and file sharing platform using Java, HTML, CSS and JavaScript. Contributed to implementation, testing and deployment to support faster collaboration and document sharing within the organisation.
- **VLC Remote**: Developed a cross-platform mobile application in Flutter that remotely controls VLC Media Player through its HTTP Web Interface. Implemented media playback controls, playlist management, volume adjustment, playback progress tracking and real-time communication with the VLC API while focusing on responsive user experience and reliable device connectivity.

- **Personal Portfolio Website**: Built and deployed a responsive personal portfolio website using React to showcase projects, technical skills and professional experience. Designed a clean, modern interface with a focus on usability, responsive layouts and performance, and deployed the application using Vercel.

Technical Skills

- **Programming Languages:** Python, Java, JavaScript, TypeScript, Dart, HTML, CSS, SQL
- **Frameworks & Technologies:** Flutter, Django, React, Next.js, Tailwind CSS, Bootstrap
- **Databases & APIs:** SQL, MySQL, REST API integration
- **Automation & Web Scraping:** Python scripting, Selenium, lxml, XPath, BeautifulSoup, Requests, Task automation, Data extraction and processing
- **Tools & Practices:** Git, GitHub, Debugging, Software testing

Certifications

- **Huawei Artificial Intelligence**: Huawei ICT Academy
- **Huawei Cloud Computing**: Huawei ICT Academy
- **Huawei Internet of Things**: Huawei ICT Academy
